LAPWORTH DESIGN
ALL FIBERGLASS
FIN KEEL, SPADE RUDDER
HIGH ASPECT RIG

FULL HEADROOM
SELF-BAILING COCKPIT
ENCLOSED HEAD
INBOARD POWER

The new Cal 2-30 is the second thirty-footer produced by Jensen Marine, and has been designated Cal two-thirty. Designed by Bill Lapworth, the new Cal 2-30 incorporates advanced designs, concepts and features in both hull and rig. The new Cal 2-30 has a finer and deeper forefoot for improved weather performance, an extra-long waterline for "Cal fast" speed, and a refined fin keel and spade rudder configuration. The Cal 2-30's high aspect ratio sailplan rep-

resents Bill Lapworth's latest thinking in sailplans.

Like all Cal boats, the Cal 2-30 is designed for both racing and cruising. Trunk cabin with full headroom—accommodations for six—six foam bunks—complete galley—ice box—enclosed head—plenty of storage space. Of course, all fiberglass construction with aluminum spars and stainless rigging, and Atomic 4 inboard power.
